

DIRECTV® AM21 OFF-AIR TUNER

The DIRECTV Off-Air Tuner is the perfect solution for adding outstanding DVR functionality to terrestrial broadcast transmissions. Designed to work seamlessly with the DIRECTV Plus® HD DVR, this specialized tuner will integrate ATSC broadcast high-definition channels directly into the DIRECTV on-screen Advanced Program Guide®.

FEATURES

- Dual ATSC tuners
- Simple USB connection
- Small and lightweight design

BENEFITS

- The easiest way to watch HD channels that are broadcast locally
- Seamlessly integrates off-air HD channels into the DIRECTV on-screen program guide
- Lets you view and record local HD channels just like DIRECTV broadcast channels
- No configuration necessary
- One-time setup is automatic
- Designed to rest perfectly on top of the DIRECTV Plus HD DVR

DIRECTV® AM21 OFF-AIR TUNER

USING THE DIRECTV OFF-AIR TUNER IS EASY:

FIND THE PERFECT PLACE

The DIRECTV Off-Air Tuner will fit conveniently on top of or below the DIRECTV Plus® HD DVR.

MAKE THE CONNECTIONS

There are just a few easy connections to make: USB, antenna cable, and power.

LET THE SETUP BEGIN

Your system will automatically detect the DIRECTV Off-Air Tuner and will take you through a series of prompts to customize it for your household.

ENJOY THE SHOW

That's all there is to it. Your new broadcast channels will appear in the DIRECTV on-screen Advanced Program Guide®, and you can view and record them just like any other channel.
